

Sandhill Community Supported Agriculture is a welcoming place for visitors who want to enjoy the farm, worship in the manner of Friends, talk about agriculture, midwifery and breast-feeding, Jesus, political action, or simply be a part of our family. There is often an opportunity for internships, live-in sojourning farmers, and ministers of the gospel, whether it is the good news of Jesus or the good news of life. Sandhill can be a working experience, or a therapeutic experience. Children are always welcome, men and women may inquire about residency, and Sandhill has always been an LGBTQ affirming community.
